

MARCIS AND THE RAINMAKER

Marcis and the Rainmaker is the story of a five year old boy and the frustrations of too many rainy days.

While Marcis once again watches the rain come down, something strange happens - the rain starts going up.

Up?

Marcis has to figure this out. There begins his adventure with the Rainmaker and their task to fix a "muddle-fuddle" in Cloud 2360-B.

Linda Lynch-Johnson is a professional storyteller whose original stories have delighted audiences of all ages. Linda is a motivational speaker whose message on change "The Adapter Factor" has been shared with businesses, organizations, colleges and universities throughout the country.
